

You've been placing yard waste out for pickup with your regular trash, so perhaps you don't know that Lansdowne has a separate yard waste removal program that puts debris into an organic waste site rather than a landfill, which is good both for the environment and for reducing the borough's trash bill. Below are the details and the pickup dates for 2010. Please participate!

- o Yard waste must be out at your curb by 7 am on the scheduled pickup date.
- o Place yard debris directly in trash cans or large brown paper yard waste bags sold at hardware and grocery stores. *No plastic bags, please* (these will not be picked up).
- o Branches and sticks must be no more than four feet long and should be bundled together and tied with string. No dirt or stones.

Pick-ups occur on Wednesdays on the dates listed below:

March 10 and 24	July 14 and 28	November 17 (no leaves)
April 14 and 28	August 11 and 25	December 8
May 12 and 26	September 15 and 29	
June 9 and 30	October 27 (no leaves)
